BRILL'S IMPROVED SNOWBALL CAULIFLOWER
A VERY EARLY SUPERIOR STRAIN

To Gardeners, Truckers and Plant Growers:

Our Business of Seed Growing was first established by John Brill, father of the late Francis Brill, at Jersey City, N. J., in 1828.

Francis Brill, after serving several years with his father, started on his own account at Newark, N. J., in 1859—removed to Long Island in 1870, where he made a specialty of growing cabbage seed, and supplying a few other specialties grown by other reliable growers, until his death, March 24th, 1913.

The Business is now being carried on by A. Walter Brill, son of Francis Brill, under the name of Francis Brill Co., and all orders you may favor us with will have the same careful attention exercised by my father for 54 years.

We do not issue any expensive illustrated catalog, but aim to supply the very best seeds at reasonable prices. We have been growing Cabbage Seed on Long Island since 1870 and think we have the very best stocks to be found anywhere.

Other seeds we have grown on contract for us by the best growers we can find, regardless of price.

We have customers that have been with us for 30 and 40 years.

Terms:—Strictly cash with order. In consideration whereof we deliver free of charge (by parcel post or prepaid express) to any point in the United States or Canada, at prices given on this list.

If a large buyer and can use several pounds of any variety, kindly send us a list of your requirements for special prices on larger lots F. O. B. here.

Remit by P. O. Money Order on Hempstead, N. Y., Express Money Order, Registered Letter or Certified Check.

Write name and address plainly, giving also Express Office if different from Post Office, when seeds are to be sent by express.

THIS LIST CANCELS ALL PREVIOUS ONES.

We respectfully solicit part of your orders.
